Issue

How to cancel an ongoing Import/Export operation on Azure SQL Database?

Note: The below steps need to be followed by the customer (self-service) when they explicitly want to cancel any ongoing or stuck import/export operation.

Investigation/Analysis

Check portal for an ongoing import/export operation on '**Server->Import/Export history**' and grab the operation ID

Refresh			
Import/Export history			
Operation	Database	Status	Completion time
ExportDatabase	dagapsource	Completed	11/17/2020 9:26:18 AM
ExportDatabase	dagapsource	Completed	11/17/2020 9:23:43 AM
ExportDatabase	dagapsource	Cancelled	11/17/2020 9:28:30 AM

Mitigation

Cancel using non-portal operations such as - **REST API** and **Powershell** (Portal option is unavailable as of now)

- Rest API - <https://docs.microsoft.com/en-us/rest/api/sql/databaseoperations/cancel> 
- Powershell - <https://docs.microsoft.com/en-us/powershell/module/az.sql/Stop-AzSqlDatabaseActivity?view=azps-5.0.0> 

Example:

```
PS /home/roshna> Stop-AzSqlDatabaseActivity -ResourceGroupName "DacpacReproRG" -ServerName "ronazi" -DatabaseName "dacpacsource" -OperationId 8555325c-3fcd-4d49-8892-4a3636ae2bfe
