## Issue

Error: 18456, Severity: 14, State: 62.

Login failed for user 'NT AUTHORITY\ANONYMOUS {NAMEPIL}'. Reason: Could not find a user matching the name provided. [Database: "] [CLIENT: 63.99.29.xx

## Investigation/Analysis

State 62 occurs when a Windows Authentication account tries to access a contained database, and the contained database exists, but the SIDs do not match.

## Mitigation

Follow this [public documentation](#)  for identifying and fixing the orphaned users

## Root Cause Classification

Root Cause: Azure SQL DB V2\Connectivity\Login Errors\Other
