Issue

Creating PostGIS extension is stuck for long time, doesn't complete.

```
create extension postgis;
```

Investigation/Analysis

Please check if cx has enable pgaudit. If pgaudit is enabled, postgis extension could take a long time to finish.

```
pgaudit.log
```

Mitigation

Temporary disable pgaudit and create the extension again.

Enabling pgaudit can affect performance: <https://docs.microsoft.com/en-us/azure/postgresql/concepts-audit>
