Cannot use Elastic job agent with Hyperscale database

Customer want to configure elastic job agent with hyperscale database but failed with below error { 'status': 'Failed', 'error': { 'code': 'DatabaseDoesNotExist', 'message': 'Database 'abulance' does not exist.' } }

Although from [this blog](#) , hyperscale database is supported with elastic job agent, but there was a bug in the backend, so the operation failed.

Repair item

[Repair item](#)  is not fixed now. So customer will still encounter this limitation.

Elastic job agent doesn't support database with auto-pause enabled

This limitation is mentioned in our public documentation [Auto-pausing](#) .

Create elastic job agent on database with auto-pause will fail with below error: { 'status': 'Failed', 'error': { 'code': 'InternalServerError', 'message': 'An unexpected error ocured while processing the request. Tracking ID: 'c430c02b-91fa-4a93-b4dc-8732ffd7d7e9' } } }
