

Scope Activity: How to handle Scope Activity related issues

Last updated by | Ranjith Katukojwala | Mar 7, 2023 at 11:35 AM PST

Contents

- [General Guidelines](#)
- [IcM Instructions](#)

General Guidelines

IMPORTANT!!! If the issue is related to pipeline or trigger execution failure, then engage **ADF - Orchestration** team for assistance. However, if the pipeline is executing and scope activity is failing, then refer to the information below.

- Scope activity is only available to internal customers. That's why we don't have any public documentation for it. *CSS TSG is the right place to document.*
- Internal users can get support through multiple channels today:
 - **Weekly office hour that Hari's team hosts**
 - **Team channel:** [Microsoft StackOverflow](#) 
 - **Support ticket**

IcM Instructions

If you need to file an ICM with the Scope Activity Product Group, kindly refer to the instructions below:

1. Use the following template to file an ICM: [Template Link](#) 
2. The ICM is created in **ADF V2 External Activities** queue.
