Copy with Parquet format as source fails with: Unsupported Parquet type. xxxx

Wednesday, July 24, 2019
11:45 AM

{ "errorCode": "2200", "message": "ErrorCode=UserErrorParquetTypeNotSupported,Type=Microsoft.DataTransfer.Common.Shared.HybridDeliveryException,Message=Unsupported Parquet type. PrimitiveType: Int64 OriginalType: TimestampMicros,Source=Microsoft.DataTransfer.Richfile.ParquetTransferPlugin,","failureType": "UserError", "target": "Copy ReportEvent" }

Timeline start, July 19th
Timeline end, July 23rd
Symptom: Copy activity with parquet format as source in Azure Data Factory would throw exception with the above error message.
Repro condition: parquet file contains type TIMESTAMP_MICROS / TIME_MICROS
Mitigation: We have turn off the EC. Just rerun the pipeline should resolve this issue.

Created with Microsoft OneNote 2016.
