Issue

Kusto Queries

Dataset

```
cluster('adfcus').database('AzureDataFactory').ApiOperationEvent | union cluster('adfneu').database('AzureData
| where env_time > ago(7h)
| where DataFactoryName == "DatafactoryName"
| where operationName == "PUT Dataset/CreateOrUpdateDatasetAsync" or operationName == "DELETE Dataset/DeleteDa
| where RequestUri contains "DatasetName"
| project env_time, env_seqNum , SubscriptionId, TraceCorrelationId, env_cloud_name , operationName, resultSig
RequestUri,UserAgent, AzureCorrelationId, DataFactoryName, DataFactoryId, TenantId, env_cloud_location
```

Pipeline

```
cluster('adfcus').database('AzureDataFactory').ApiOperationEvent | union cluster('adfneu').database('AzureData
| where env_time > ago(7h)
| where DataFactoryName == "DatafactoryName"
| where operationName == "POST Pipeline/CreateSandboxAsync" // debug runs
or operationName == "PUT Pipeline/CreateOrUpdatePipelineAsync"
or operationName == "POST Pipeline/CreateRunAsync" // manual trigger
or operationName == "DELETE Pipeline/DeletePipelineAsync"
| where RequestUri contains "PipelineName"
| project env_time, env_seqNum , SubscriptionId, TraceCorrelationId, env_cloud_name , operationName, resultSig
RequestUri,UserAgent, AzureCorrelationId, DataFactoryName, DataFactoryId, TenantId, env_cloud_location
```

Linked Service

```
cluster('adfcus').database('AzureDataFactory').ApiOperationEvent | union cluster('adfneu').database('AzureData  
| where env_time > ago(7h)  
| where DataFactoryName == "DataFactoryName"  
| where operationName == "PUT LinkedService/CreateOrUpdateLinkedServiceAsync"  
or operationName == "DELETE LinkedService/DeleteLinkedServiceAsync"  
| where RequestUri contains "LinkedServiceName"  
| project env_time, env_seqNum, SubscriptionId, TraceCorrelationId, env_cloud_name, operationName, resultSig  
RequestUri,UserAgent, AzureCorrelationId, DataFactoryName, DataFactoryId, TenantId, env_cloud_location
```
