

SQL Side error messages

Last updated by | Sunil Veldurthi | May 23, 2022 at 5:34 AM PDT

For SQL side, It is all the error messages in section 227 in [file](#) . Copy to below incase you do not have access to the file.

```
// BEGIN MAJOR RANGE:  
// MajorConstant: SYNAPSE_LINK_ERR  
// MajorNumber: 227  
// MajorRangeOwner: psong  
//-----  
const int SYNAPSE_LINK_ERR = 227;
```

```
// ErrorNumber: 22701
// ErrorSeverity: EX_USER
// ErrorFormat: Cannot run this stored procedure as Change Feed feature is not enabled.
// ErrorCause: User tried to run Synase Link stored procedure while the feature is not enabled.
// ErrorCorrectiveAction: Do not use Synase Link stored procedure until feature is enabled
const int SYNAPSE_LINK_FEATURE_NOT_ENABLED = 1;

// ErrorNumber: 22702
// ErrorSeverity: EX_USER
// ErrorFormat: Caller is not authorized to initiate the requested action. Only members of the db_owner fixed
// ErrorCause: The caller does not have sufficient authorization to perform the requested action.
// ErrorCorrectiveAction: Request necessary authorization from db_owner.
const int SYNAPSE_LINK_NOT_AUTHORIZED = 2;

// ErrorNumber: 22703
// ErrorSeverity: EX_USER
// ErrorFormat: Could not enable Change Feed for database '%s'. Change Feed is not supported on system databas
// ErrorInserts: database name
