Issue

Customer is trying to compile a Scope script with a Scope activity and it is failing due to some ACL issue, but all his ACLs are set up.

Getting the error message: Error While Downloading Script. Details: Access to <https://customeradls.azuredatalakestore.net/webhdfs/v1/lab> is denied. Make sure the ACL and firewall rule is correctly configured in the Azure Data Lake Store account. Service request id: e2a73e4e-4c67-4b38-8c15-00805b032c5b Response details: {'RemoteException': {'exception': '**AccessControlException**', 'message': 'LISTSTATUS failed with error **0x83090aa2** (Forbidden. ACL verification failed. Either the resource does not exist or the user is not authorized to perform the requested operation.). [e2a73e4e-4c67-4b38-8c15-00805b032c5b] failed with error 0x83090aa2 (**Forbidden. ACL verification failed**. Either the resource does not exist or the user is not authorized to perform the requested operation.). [e2a73e4e-4c67-4b38-8c15-00805b032c5b][2020-09-03T01:25:27.0323300-07:00]', 'javaClassName': 'org.apache.hadoop.security.AccessControlException'}}

Resolution

Please make sure service principal has appropriate access to folder: <https://customeradls.azuredatalakestore.net/webhdfs/v1/lab>

Refer this article for permissions: <https://docs.microsoft.com/en-us/azure/data-lake-store/data-lake-store-access-control#common-scenarios-related-to-permissions>

If issue persists, please collaborate with ADLS team for further assistance.
