

Reset a password

Last updated by | Vitor Tomaz | Dec 11, 2020 at 11:18 AM PST

How to questions: Reset password

The password for the Server admin can be reset using the Azure portal.

- Go to your Azure portal
- Click SQL Servers
- Select the server from the list
- Click Reset Password.

The password for non-admin users can be changed using a client application such as SQL Server Management Studio or Azure Data Studio and the [ALTER LOGIN](#)  statement.

Note: The admin login name cannot be changed after it has been created.
