Behavior:

Datetime get converted to another time zone when written by Dynamics connector.

Possible cause:

1. Check if any preferred time zone is set on the account which is used in the linked service.

Mitigation steps:

Customer can change the preferred time zone by following: <https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/fin-ops/organization-administration/tasks/set-users-preferred-time-zone> 

Clarification

ADF dynamics connector does not do any time zone conversion of DateTime. It writes as-is to sink entity.
