Issue

Custom Specify the dataset reference in Activity Payload, but the datasets.json is empty

Cause

Defect

Mitigation

Let customer put all necessary information in extendProperties, like below:

```
"extendedProperties": {  
  "connectionString": {  
    "type": "SecureString",  
    "value": "aSampleSecureString"  
  },  
  "PropertyBagPropertyName1": "PropertyBagValue1",  
  "propertyBagPropertyName2": "PropertyBagValue2",  
  "dateTime1": "2015-04-12T12:13:14Z"  
}
```
