## Issue

You noticed the following error while executing HDI Activity in the logs:

*error: Microsoft.DataTransfer.Execution.HdiManagementClient.Exceptions.HdiException: General hdinsight client error,*

*error message: {"error":{"code":"RequestDisallowedByPolicy", .....*

## Cause

Target HDI Service has policy assignment which user's payload Annotations do not align up with service policy assignment.

## Resolution

Ask user to collection information with following command to collect the policy info, and contact ARM team to find out the mismatch.

```
(Get-AzPolicyDefinition -Id "/subscriptions/{subId}/providers/Microsoft.Authorization/policyDefinitions/region
```
