Issue

Customer wants to use proxy user credential in linked service to login into their Oracle DB.

Resolution

Add Following under "Additional connection properties": -

Property Name: ImpersonateUser Value: <proxy user ID>

User name *

<UserID>

Password *

.....

Additional connection properties

+ New | Delete

<input checked="" type="checkbox"/>	PROPERTY NAME	VALUE
<input checked="" type="checkbox"/>	ImpersonateUser	<ProxyUserID>

Annotations

+ New

Name

Parameters

Apply

Connection successful

Test connection

Actually, it is coming from oracle side about the additional property for the connection string.
