

# Copy data

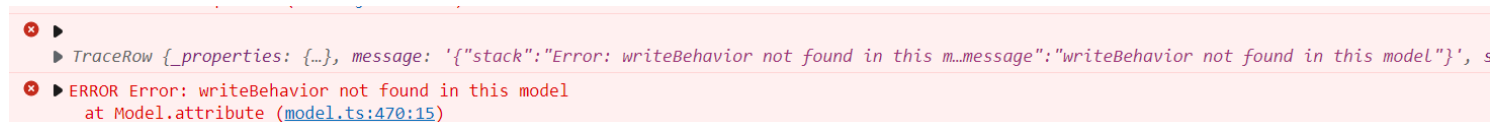

Last updated by | Ranjith Katukojwala | Mar 7, 2023 at 11:35 AM PST

## Unable to get Copy data details

When user clicks on a **Copy data** activity from an existing pipeline, and the page freezes with loading spinner:

If user sees error message along the lines of **"ERROR Error: writeBehavior not found in this model"** in the console:

The cause most likely is due to mis-typed sink dataset. User should check the JSON code, and find the

```
"sink": {  
  "type": "SqlDWSink",  
  "disableMetricsCollection": false  
},
```

corresponding sink type:

According to [ADF doc](#) , to copy data to Azure SQL, the expected type should be "**AzureSqlSink**":

```
"sink": {  
  "type": "AzureSqlSink",  
  "disableMetricsCollection": false  
},  
"sinkType": "AzureSqlSink"
```
