[illegible]

SME	
Symptoms	<p>Copy activity fail with the following error:</p> <p>ERROR [HY000] [Microsoft][Salesforce] (148) MALFORMED_QUERY: Truncated</p> <p>ERROR [HY000] [Microsoft][Salesforce] (148) Truncated</p>
Cause	This is an undocumented limitation in Salesforce server side, when trying to query a column that is of the type JunctionIdList, which limits the query row number.
Resolution	<p>First, double confirm with the customer whether they are selecting columns that are of JunctionIdList type.</p> <p>If yes, they have to</p> <ol style="list-style-type: none"> 1. Exclude the column in the query, or 2. Limit the total result count to a small number, e.g. <code>SELECT <columns> from <table> limit 100</code> <p>If no, not related to this TSG. Escalate the issue to PG.</p>
