Issue

Error code = 2402

Message: Execution fail against sql server. Sql error number: {}. Error Message {}

Cause

ADF is just trigger, SP and SQL Server are block box to ADF , If customer db server or query has issue, ADF no knowledge to troubleshoot this.

Resolution

So suggest check the SQL Error number in activity output, Then check SQL help doc below to fix issue by himself

<https://docs.microsoft.com/en-us/sql/relational-databases/errors-events/database-engine-events-and-errors?view=sql-server-2017> 

If still need help, please find sql team for further help.
