Contents

Issue

Under some situations you may see the error: Managed Instance is not available for the chosen subscription and region. Please try again with some other subscription, region, or use Microsoft Support to request region access.

Investigation/Analysis

You may see this error if customher has reached the quota limit or cutomer is trying to create instance in closed region. Note: In closed regions everybody has 0 quota unless explicitly whitelisted.

Follow the TSG to check Quota for MI: (https://supportability.visualstudio.com/AzureSQLDB/_wiki/wikis/AzureSQLDB.wiki/342905/How-to-check-Managed-Instance-quota-and-usage)

Mitigation:

Customer can Request quota increases for Azure SQL Database and SQL Managed Instance using the following article. (https://learn.microsoft.com/en-us/azure/azure-sql/database/quota-increase-request?view=azuresql ☐)
