Unable to approve private endpoint
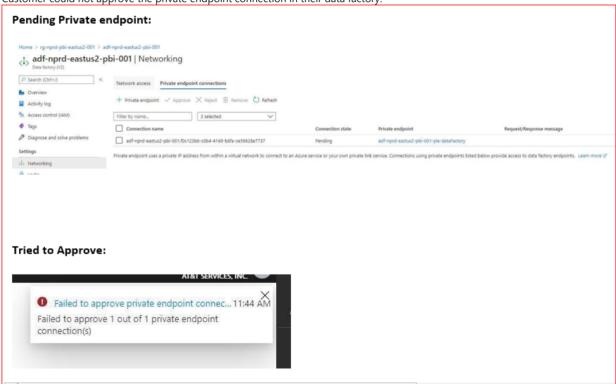

Last updated by | Jackie Huang | Jan 4, 2022 at 12:24 AM PST

Contents

Problem Description

Customer could not approve the private endpoint connection in their data factory.

Cause

check the kusto log

```
let ais=( ApiOperationEvent | where operationName == 'PUT PrivateEndpointConnection/CreateOrUpdatePrivateEndpointConnectionAsync' | where DataFactoryName ==
'<data factory name>' | distinct TraceCorrelationId); AdfTraceEvent | where TraceCorrelationId in (ais) | where TraceLevel == 'Error' | project env_time,
Message, TraceCorrelationId, TraceLevel
```

check whether the error message is contains some message like below:

The client '78909582-xxxx-xxxx-xxxx-xxxxxxxx' with object id '78909582-xxxx-xxxx-xxxx-xxxxxxxx' does not have authorization to perform action '**Microsoft.Network/privateEndpoints/privateLinkServiceProxies/write**' over scope '/subscriptions/**7eb51ca3--xxxx-xxxx-xxxx-xxxxxxxx**/resourceGroups/cnxs01-eastus2-pe-rg-001/providers/Microsoft.Network/privateEndpoints/daas-nprd-newcore-adf-ple-dataFactory/privateLinkServiceProxies/daas-nprd-newcore-adf-ple-dataFactory.proxy.a70fa94d--xxxx-xxxx-xxxx-xxxxxxxx' or the scope is invalid. If access was recently granted, please refresh your credentials.

Recommendations

ask customer to register the Microsoft.DataFactory resource provider for the subscription **highlighted above**, if the subscription already has resource provider registered, ask customer to re-register it.
