## Issue

Data flow preview failing with the following error:

Failure 2020-10-02 16:36:55.352 failed DebugManager.processJob, run=2292b635-c946-4469-a517-807a2db8b9d2, errorMessage=DF-SRC-002 at Source 'source1': **'fileSystem' (File System) is required**, exception=

❌ **Error:**

DF-SRC-002 - 'fileSystem' (File System) is required - EXE-0001,Dataflow cannot be analyzed as a graph,
source(
) ~> source1 - RunId: 7ade93b7-ed4a-4142-b348-f477433c28e7

```
Execute: [Web] [Desktop] [Web (Lens)] [Desktop (SAW)] https://adfneu.kusto.windows.net/AzureDataFactory
DatabrickLoggingTest
| where ActivityRunId == "<activityRunId>"
```

## Resolution

Customer was using Blob Storage Linked Service instead of ADLS Gen2 Linked Service. After using the ADLS Gen2 Linked Service, the error was resolved.
