Capture Dataflow Logs

Thursday, February 13, 2020
01:14 PM

Refer to the below steps to download the dataflow logs while troubleshooting customer issues. The logs contains the dataflow json & dsl file, linked services, dataflow scrip
Product Group while raising Icms or SME/EEE engagement.

Steps

1) Select the dataflow from the Data flows list

2) Click on the ... (3 - dots) next to the dataflow name and select "Download support files"

3) Request customer to share the .zip file (mostly gets downloaded to the Downloads folder)

NOTE: The file name would be the *<dataflowName>*_support_live.zip

Created with Microsoft OneNote 2016.
