201091- Add AddtionalHeaders for Odata Linked service

Monday, January 6, 2020
15:59

SME	
Symptoms	Some times the existing Odata authentication types may not be able to meet the customer's requirements and they may would like to append additional headers.

Resolution	Here is the hidden workaround that has been merged and deployed in 2019.11
	In the advanced of the Odata Linked service, add the content as similar as below:
	
	{
	  "properties": {
	    "typeProperties": {
	      "additionalHeaders": {
	        "\<headername>": "\<Header value>"
	      }
	    }
	  }
	}

Detail	
Tags	Odata, Sap ECC, SAP C4C, DynamicsAX

Created with Microsoft OneNote 2016.
