Cannot run this stored procedure as Change Feed feature is not enabled

Last updated by | Meiyan Li | Apr 24, 2022 at 11:08 PM PDT

Issue

Error message: Cannot run this stored procedure as Change Feed feature is not enabled.

Cause

Synapse Link is still a **private preview** feature, you need do additional steps to enable this feature in the source Azure SQL database or SQL Server 2022.

Resolution

1. If you are using Azure SQL database as source. Source SQL logical server have been added to the Gated Preview of Synapse Link for Azure SQL Database, by emailing us at SynapseLinkSQL@microsoft.com .

2. If you are using SQL Server 2022 as source. Configure the SQL Server 2022. Follow EAP guidelines to access SQL Server 2022 bits. You can get it from \sqlbuilds\testbuilds\OnPremCB\20\SQL22_CTP1_2\16.0.200.1\retail\SQLFULL_ENU and restart with parameters "-T13800 -T12701 -T12711 -T4511 –T13803". See details in "Install SQL Server 2022 CTP1 retail build" in Synapse Link for SQL 22 Integration Steps.docx.
