Issue

When customer uses Azure Synapse Analytics as source in dataflow (preview data, debug/trigger run...). He may find job will fail with following error message:

```
DF-EXEC-1 Unable to retrieve data from the source.
DF-EXEC-1 Task failed while writing rows.

Caused by: shaded.msdataflow.com.microsoft.sqlserver.jdbc.SQLServerException: DMV (Dynamic Management View)
```

Root Cause

Customer is reading from specific tables and the data source is a serverless (on-demand) pool. As confirmed with Synapse team, all tables/views related to 'dm_continuous_copy_status' is not supported in Synapse product family.

Resolution

Suggest customer to change to a valid table/view. And CSS should contact Synaspe on-demand team directly and confirm whether the table/view customer selected is supported or not.
