Issue

Customer gets error message like "The specified maintenance window slot 'DB_2' isn't supported."

Investigation/Analysis

DB_2 is not one of the supported maintenance window slots for SQL MI (this is for SQL DB).
SQL MI values are like **SQL_AustraliaEast_MI_2**

Mitigation

See [Discover SQL Managed Instance maintenance windows](#) ⧉ for valid slot names.

Example:

```
PS C:\Users\X> $location = "australiaeast"

Write-Host "Available maintenance schedules in ${location}:"
$configurations = Get-AzMaintenancePublicConfiguration
$configurations | ?{ $_.Location -eq $location -and $_.MaintenanceScope -eq "SQLManagedInstance"} | Select-Obj

Available maintenance schedules in australiaeast:

Location            : australiaeast
Id                  : /subscriptions/ea47242a-c599-495b-bd51-49863aa42ec4/providers/Microsoft.Maintenance/publ
Name                : SQL_AustraliaEast_MI_1
MaintenanceScope    : SQLManagedInstance
ExtensionProperties : {[description, 10:00 PM to 6:00 AM AUS Eastern Standard Time, Monday to Thursday]}

Location            : australiaeast
Id                  : /subscriptions/ea47242a-c599-495b-bd51-49863aa42ec4/providers/Microsoft.Maintenance/publ
Name                : SQL_AustraliaEast_MI_2
MaintenanceScope    : SQLManagedInstance
ExtensionProperties : {[description, 10:00 PM to 6:00 AM AUS Eastern Standard Time, Friday to Sunday]}
```
