DSS010.2 - Data Sync - Logging levels

Last updated by | Keith Elmore | Apr 5, 2021 at 7:57 AM PDT

In case you are wondering about logging levels:

```
<switches>
  <add name="SyncAgentTracer" value="4" />
  <add name="SyncTracer" value="4" />
</switches>
```

Level 1: ERROR

Level 2: ERROR, WARNING

Level 3: ERROR, WARNING, INFO

Level 4: ERROR, WARNING, INFO, VERBOSE

In case you need info about why some rows failed to sync you can use just level 1, example:

ERROR , DataSyncLocalAgentHost, 4, 05/02/2018 17:31:26:869, Error during DeleteCommand: System.Data.SqlClient.SqlException (0x80131904): The DELETE statement conflicted with the REFERENCE constraint "FK__DetailTab__Maste__3C69FB99". The conflict occurred in database "DSSTest1A", table "dbo.DetailTable1", column 'MasterTableID'.

How good have you found this content?

😊 🙁
