SME	
Symptoms	Sometimes, you may encounter the issue when connecting to DB2 with DB2 buildin connector
Cause	If the issue is very difficult without any solutoin, you can check with customer whether the custo the ODBC link service as workaround below to make agreement https://docs.microsoft.com/en-u factory/connector-odbc.
Resolution	If customer accept the ODBC link service, you can ask the customer to follow the steps below: • Follow this doc to download the IBM DB2 ODBC Driver https://www.ibm.com/support/knowledgecenter/SSEPGG_11.1.0/com.ibm.db2.luw.apdv.cli.doc/ • Follow this doc to install the driver https://www.ibm.com/support/knowledgecenter/SSEPGG_11.1.0/com.ibm.db2.luw.apdv.cli.doc/ • Test with the driver again with ODBC. After that, installing the ODBC link service.
