Customer could still see the linked IR in shared IR after the linked DF is deleted

Monday, November 4, 2019
3:35 PM

SME	Yandong Zhang (yanzhang)
Symptoms	Customer could see the linked IR under the SHIR Sharing page, while in the linked Data Factory customer could not be able to see it
Cause	• Customer delete the linked DataFactory and recreate it
Resolution	Customer need to recreate the linked IR under the linked DataFactory
More Information	All the resources under the DataFactory should be cleaned up when data factory is deleted, there is a back log we didn't delete the linked IR reference under shared IR when the linked data factory is deleted.

Created with Microsoft OneNote 2016.
