	201033- [FTP/SFTP] Use incorrect linked service type		ASC Onboard
	Monday, March 26, 2018 3:43 PM		

SME	
Symptoms	Customer is using incorrect linked service type for FTP or SFTP server. E.g. use FTP Linked Service to connect to a SFTP server, or in reverse.
Cause	Incorrect type configured
Resolution	Please check with customer the port of the target server, by default FTP is using port 21 and SFTP is using port 22.
